FRUIT TREES BLOOM IN BELEN ORCHARDS

Unless Cold Snap Does Damage, Good Crop Is Promised.

Belen, N. M., March 25.—Although the weather is still rather severe in this vicinity, the first fruit blossoms are now in full bloom here. The apricots are fully out, and the peaches will be so within the next few days. All trees of these two varieties seem to be well loaded with blossoms, and if the weather is not too severe, the indications are that there will be a good crop.

For the past few days the thermometer has stood lower than is usual at this time of year, and many orchardists have expressed their fears that unless a warm spell came the fruit buds would be seriously damaged. However, others are positive in their statements that the weather becomes more severe than it is at present the blossoms will not be injured. During the daytime, the temperature is none too low to injure the fruit, but in the night it falls several degrees and there is where the danger lies.

Although no other variety of fruit is very far advanced at this stage the indications are that there will be good crops. With the increased acreage in and about Belen, and with favorable conditions from now until the possibility of cold weather has passed, the fruit crop this season should be much larger than that of last year.

Bridge Built for Indians.
The new bridge which is being erected by the United States government at the Indian village of Isleta, a short distance up the valley is nearing completion. This bridge is being built for the benefit of the Indians, who number considerably in excess of 1000. The village is divided into portions of it by the river, and the main portion lies on the west bank. When the bridge is completed either side will be perfectly easy of access, and the improvement will be a valuable one for the natives. The bridge is of steel construction.

A barn dance was given in Commercial hall by the social committee of the Belen Commercial club. There was a large attendance. Bales of hay took the place of chairs for the evening, and everything was made to appear as near like a barn and farm party as possible. Those who attended came dressed in all manner of fantastic gowns, the men wearing high-water trousers, overalls, jumpers, straw hats and spats, and the women wearing the regulation checked aprons and sun bonnets.

Considerable activity is starting in the vicinity of the Rio Puerco river, where a heavily capitalized company is planning to make extensive improvements, according to an announcement made here. There is a large tract of government land in close proximity to the site of the large purchase, where soil and water conditions are even better than those where the purchase was made. Levee operations are now in progress and it is thought that within a short time much interest will

Dinners and Luncheons

Miss Hallie Irvin's delightful party on Saturday morning was in honor of her guests, Miss Latta Jessup, and to announce Miss Jessup's engagement to Thomas Benton Webb, of Mexico City, who is a civil engineer there and very prominent in mining circles.

Miss Irvin entertained for 12 of Miss Jessup's most intimate friends, and the announcement proved a surprise to everyone.

After spending the morning in sewing, the guests repaired to the dining room where a delicious two course luncheon was served.

In the center of the dining table was a large round mirror upon which stood a dainty miniature table, in full regalia, under an improvised bridal arch of smilax, studded with yellow lilies. The branches of this delicate vine were made into ropes which ran from the center to the four corners of the table. From the electric dome, which was wreathed in southern smilax, filmy white bridal veiling was extended to the four corners of the table ending in a fluffy bow at each corner.

The place cards were very clever in their representation of a letter. Conundrums and their answers were on one side and the name of the bride elect and her fiancé on the other. On the table the shimmer of Madeira hand embroidered damask and glitter of silver was enhanced by small yellow baskets, filled with salted almonds which divided honors with cut glass bowls of yellow candies.

The color scheme of yellow and white was carried out in the menu.

Those present were: Mesdames Winston Pettus, C. O. Coffin, Edward Earl, Frank Lynch, Fred Woodworth, E. H. Irvin, Thomas Hasom, Dan Stewart, L. G. Witherspoon; Misses Latta Jessup, Aileen Blacker and Hallie Irvin.

Misses Vera Ballard and Ruby Miller were hostesses on Friday afternoon for the Philathea class of Trinity Methodist church at the home of Miss Ballard.

The affair was a surprise miscellaneous shower complimentary to Miss Ora Corbin, who will soon become the bride of Dr. Henry Wickman, of Chicago.

The bride elect was asked to follow a ribbon from which were hung hearts and witty sayings and at the end of the ribbon was a basket so arranged that when pulled the contents were showered upon the bride. During the afternoon a musical contest was arranged, causing much merriment. An ice course was served.

A reading was given by Miss Anita Corbin. Miss Mildred Marson gave a local selection, which called forth applause.

A very interesting feature of the program was a debate, "Resolved, that the pleasures of wedded life are more than those of single blessedness." Miss Shirley was on the affirmative and Miss Huggatt on the negative side. It was decided to let "Father Time" be the judge.

Each guest was given a blank heart and asked to write a wish for the bride. These were afterward read and bound together in book form. The gifts were hung on line and the bride was asked to take the wish off the line.

Among those present were: Misses M. Shirley, Mildred Marson, Miss Corbin, Clara Corbin, Rosa Brooks, Jessie Burford, Ora Corbin, Anita Corbin, Tura Compton, Lillian Huggatt, Mrs. Huggatt, Mrs. Lily Howard, Mrs. Corbin, Mrs. Binkley.

Mrs. Houston Fall entertained recently with a linen shower for Miss Sara Cobb. Many beautiful and useful gifts were presented the bride-to-be by her friends.

TEN YEAR CASE YIELDS

We copy the following from a letter from D. O. Robinson, Spartanburg, S. C.: "I called on Mr. J. A. Thompson, who was afflicted ten years ago with chronic Bright's Disease. It gradually grew worse until two years ago he was unable to do his work. You can use this item as he gives this privilege. His son is a prominent dentist."

There is no question about the chronic and incurable form of kidney disease. Some late writers declare the sixth month puts the disease over the deadline. Physicians declared the chronic stage in this case was established ten years ago. Also note that patient was up and about two years before taking the treatment. This makes up an absolutely hopeless case under the old regime.

We have declared over and over that there is some hope in even old and extreme cases, for a certain percentage of them yield to certain drugs.
